

Make Sport Happen

Stay Involved, Stay Active

Toolkit

About

The spread of the Covid-19 pandemic had a direct impact on mobility and mental health around the globe. Countries in the Gulf region have responded differently to the pandemic introducing different measures to contain its spread, varying from social distancing measures to partial or full lock-down. This has had a great impact on people's physical and mental wellbeing in the Gulf.

Since its launch in 2017, the [Sports program](#) has aimed at increasing young people's quality of life and wellbeing, both physically and mentally, sharpen leadership skills and encourage volunteerism. It is a participant led program, where participants are trained to cascade the core values of the Sports program, delivered in partnership with the Youth Sport Trust International.

As a response to the continuing spread of Covid-19, the British Council is introducing this toolkit as a means to support those in the region to stay active and healthy whilst at home.

The toolkit includes a wealth of free resources for children, adults, families and friends to stay active in their home and virtually.

We urge you to Stay active and stay safe.

Free Resources

Youth Sport Trust is a children's charity working to ensure every child enjoys the life-changing benefits that come from play and sport. YSTi has been the British Council's UK delivery partner for the Youth Sport Leadership programme, launched Gulf wide in 2017.

A recorded webinar - Inclusive practices to support you adapt during staying at home.
